**LIVING ROOM:** Nina Kati describes her roomset as 'sophisticated urban chic' living space.

"My roomset has been designed along the principles of Feng Shui, using calm colours and balance to create an harmonious result.

"For the décor I used Colortrend's Historic Collection of fabulous soft, rich paint colours in Historic Luxury Matt finish for the walls which are a cool elegant pale grey and Historic Antique Eggshell for the woodwork in a warm grey tone.

"For the concept of my roomset I created a living room scheme and chose a design that I feel people will be inspired by and can easily re-create in a similar way in their own homes."
